

Comenius Project
“The Consumer Society and Youth in Europe”
School year 2009-2010

Meeting in Bergen 2-8 May 2010
Evaluation of the four workshops
Results of the ITALIAN GROUP (4 students)

1. Tick off which activities you liked best:

Tick	Activity	Why?
3	Presenting the results of your own country	-Even though I was worried about my presentation, I felt calm and self confident when I started talking. -Because I liked explaining to the other students my presentation. -Because I liked showing my results after having worked hard. It was very satisfying.
3	Preparing questions for interviews	-Because in this moment you can create a stronger friendship, and you can learn something. -Because I think that speaking English all together I improved the language. -Because I could compare my ideas with these of my others guys.
	Interviewing people	
1	Writing reports on the interviews	-Because there are many ways to do that, and you can improve your English.
1	Watching videos	-Because we enjoy ourselves a lot.
	Selecting essays	
3	Comparing results of questionnaires	-It was really curious being able to see that other countries had answered in a

		<p>totally different way from us to certain questions. I can say it helped me have a bigger picture of the youth in Europe.</p> <p>-Because you can know what are the habits of the other students.</p> <p>-Because it made me understand how and what the boys and the girls of the other countries prefer.</p>
--	--	--

2. Write briefly what could be improved and how:

- Nothing.
- I think that it was perfect in the way we did it.
- I suggest to do more workshop; students can know each other only working together and talking freely.
- I can't think of anything in particular. Maybe the work at school should have been organised better, because we hadn't time to present the reports on the interviews. I guess this is the only thing that could be improved.
