

## Comenius Project “The Consumer Society and Youth in Europe”

Meeting in Trujillo 1st-7<sup>th</sup> May 2011

### The Fair Trade market at Zanon

On the 13<sup>th</sup> of December 2010 a group of students of our school, coordinated by two teachers of the project, cooperated at the Fair Trade market. We sold Fair Trade products, mainly food and items made of cloth, which we received by a shop in town; we offered them not only to students and teachers of the school, but also to parents and students who were interested in starting the courses at Zanon next year.

All benefits were given to charity for a project in Africa.

The Fair trade market has been an interesting opportunity for the students to work together, to get to know more about this kind of trade, and to inform people on it.
