

*Dear students,*

*In order to offer you the possibility to get to know each other and share opinions about our Comenius project, on which you have started to work this school year, your teachers have decided to open a forum. It is a virtual space where you can express your opinions on specific topics or questions. At the moment all the students are working on CONSUMER SOCIETY and FOOD HABITS. So you are invited to cooperate on this topic. The teachers have selected a few questions for you, so you can post your contribution selecting the question/questions you like best.*

*If you have any suggestion on the questions or if you want to propose any new question related to the topic, please write your contribution in the forum called "Suggestions from students".*

*We hope you have fun and get to know each other. We wish you will create a "Comenius" space of respectful and cooperative contributions.*

*Your Comenius teachers.*
